

Comparing pictures

**Take some time to
look at them.**

Try to have useful phrases which can be used to compare any pictures.

Can you think of any
of them now?

Both pictures show...

They are photos of ...

We can see ... in both
photos.

Then, once you have
said the general topic
of both pictures ...

... you can point out
their main differences
or ...

You can describe both photos separately in a brief way, but ...

... emphasising their
relation.

If you have started
with the things they
have in common, ...

... now finish stating
their differences.

And, remember ...

Do's:

- say what the general topic is
- talk about both photos (people, objects, background)
- describe briefly both photos: what you see first, then what you can speculate (what's happening, what has just happened, what will happen next, feelings...)
- Point out the main differences
- Add personal opinion or advice
- Complete the tasks provided

Don't's:

- Don't focus on just one photo
- Don't talk very fast or very slow
- Don't repeat your favourite phrases all the time
- Don't be silent too much time
- Don't focus only in similarities/differences
- Don't forget about answering the questions/ follow the guidelines provided

- Talk about the different ways in which children use their free time today.
- Talk about the effects of these habits for friendship and relationships.
- Give your opinion about it.
